2:01 A.M. — OCTOBER 15, 1961**

HOW TO USE THE DIAL TELEPHONE

PLEASE BE SURE—LOOK UP THE NUMBER IN THE DIRECTORY FIRST

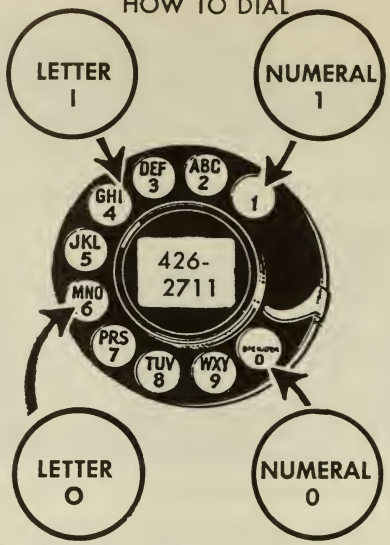
HOW TO DIAL

Lift the Receiver. Before Dialing — "LISTEN for DIALTONE", a Steady Buzzing tone. Your line is clear when you hear the "DIALTONE".

A Rapid Buzz-Buzz-Buzz means the Exchange is busy. Replace the Receiver and try again in a few minutes.

EXAMPLE, to call 426-2711:

Dial the number by placing finger in the opening over the Numeral 4. Turn the Dial Clockwise until it strikes the Stop. Remove and let the Dial return freely. Repeat this operation dialing



Numerals 2-6-2-7-1-1.

Do not touch the Dial as it returns. It is Important that dialing be continuous. Don't wait between digits. If you make a mistake, hang up for a few seconds and dial the complete number again. A Bur-rr-ing sound means that the called telephone is Ringing. Allow a reasonable length of time for someone to answer. If you receive no answer, hang up and Dial again later.

A rapid Buzz-Buzz sound means that the called line is busy, hang up and call later.

Be careful—Don't Confuse the Numeral "0" (Zero) with the Letter "O". Dial Seven Numerals or Two Letters and Five Numerals.

PARTY LINE AND EXTENSION TELEPHONES

Efficient Party Line Service depends largely upon the consideration and courtesy which each Subscriber gives to the other parties on the same line. Endeavor to limit calls to five minutes duration.

When Dialing on a party line, or on any line with an extension telephone, it is necessary to consider that someone else may be using the line.

If you hear a conversation upon lifting the receiver, replace receiver immediately. Avoid interrupting other parties' conversation.

If you hear "Dial Clicks" when lifting your receiver someone else on the line is dialing. This has interfered with the dialing. Inform the other party of it. Hang up and permit them to dial again.

If you are dialing and another party interferes before you have heard a ringing signal, inform them that the line is in use. After they replace their receiver, replace yours for a few minutes. Dial the number again. It will not be necessary to re-dial if the interference occurs after you have heard a ringing signal. Inform the other party that the line is in use.

HOW TO DIAL A PARTY ON YOUR LINE

Telephone Numbers which have the same fourth, fifth and sixth digits are on the same line:

EXAMPLE 426-2711 & 426-2716

To Call another Party on your Line

1. Dial 9
2. Dial the last digit of your number
3. Dial the last digit of the number you are calling.
4. Replace your receiver.
5. Both parties will receive a ringing signal.
6. Ringing Signal will stop when answered.
7. Remove your receiver promptly for conversation.
8. If the called party does not answer, remove your receiver for a few seconds to stop ringing.
9. If you get a ringing signal and no one is on the line, it may be a call from another party on your line. Give the calling party time to realize that you have answered.

DIRECT DISTANT DIALING

Beginning OCTOBER 15, 1961 — 2:01 A.M.

DIRECT DISTANCE DIALING will be in Operation in this Area, October 15, 1961, at 2:01 A.M. You will be able to Dial Your Own Station-to-Station Long Distance Calls from Your Home or Business Telephone.

Long Distance Calls to Telephones Within the State of Virginia may be made as follows:

1. Dial the Numeral "1" (Not the Letter I) in order to reach the Long Distance Equipment.
2. Dial the Number of the Distant Telephone.
3. Do Not Dial the Virginia Area Code for Interstate Distant Calls.

AREA CODES FOR EACH STATE & CANADA

Long Distance Calls to Telephones Outside of the State of Virginia may be made as follows:

1. Dial the Numeral "1" (Not the Letter I).
2. Dial the Area Code as Indicated on the Map Shown Above.
3. Dial the Number of the Distant Telephone.

Most Telephone Numbers will be Identified Automatically for Billing Purposes. However, Calls from some Telephones will intercept the Operator. In this Event, Please give the Operator the Calling Number when you have finished Dialing.

There will be No Change in the Method of Dialing to Telephones within Your Local Calling Area.

WARNING: Virginia State Law provides that any person shall be guilty of a misdemeanor "who fails to relinquish a telephone party line after he has been requested to do so to permit another to place an emergency call," or "who requests another to relinquish a telephone party line on the pretext that he must place an emergency call, knowing such pretext to be false." The law defines an "emergency call" as "a call to report a fire or summon police, or for medical aid or ambulance service, in a situation where human life or property are in jeopardy and the prompt summoning of aid is essential."

The Federal Excise Tax on Long Distance Calls is as follows: On calls (except when made from unattended coin telephones), the tax is 10% of total charge.

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. The INDEPENDENT Exchanges, or Consolidated Directory Co., assumes no responsibility or liability for errors or omissions occurring in the Telephone Directory. Errors or omissions will be corrected if reported by letter to the company.
